

BOLT-ON LEVELING LEGS

INSTALLATION INSTRUCTIONS

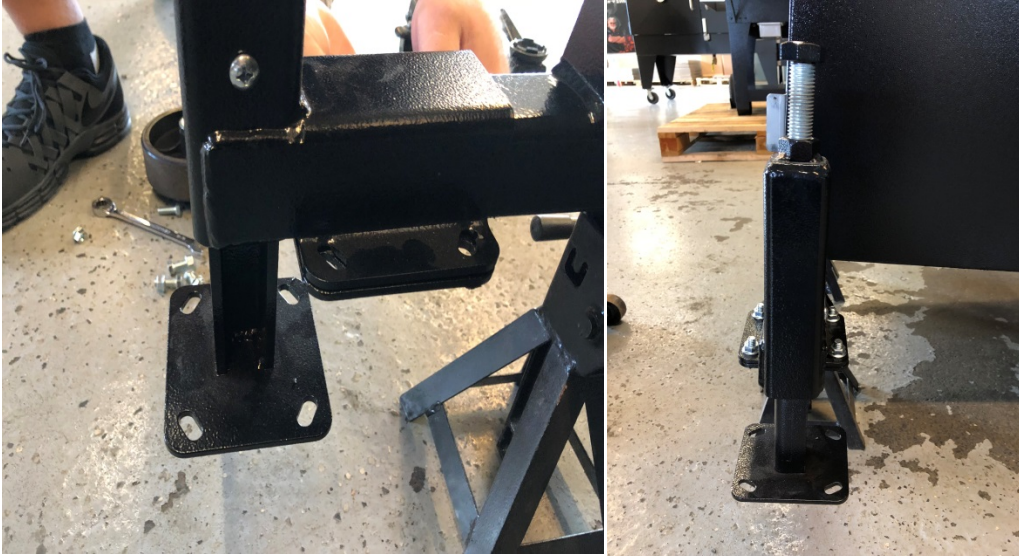

1. Chock the wheels on one side of the smoker and SAFELY raise and support the opposite side of the smoker.

2. Remove the caster. Retain the caster and hardware for reinstallation.

3. Install the bolt on Leveling Leg assembly. The assembly slides over the square tube and lines up with the existing caster mounting plate. Use the included hardware to secure the Leveling assembly to the smoker.

4. Install the Caster onto the Plate on the Leveling Leg using the existing hardware.

5. Repeat Procedure on the opposite side of the raised end of the smoker. Safely lower smoker back to the ground and repeat the procedure on the opposite end of the smoker.
